This service can assist by supplying and fitting grab rails, key safes and other low-level adaptations to ensure that residents can live safely and independently in their home.

It can also help with minor repairs that support safe living – such as changing light bulbs, ensuring carpets are fitted safely to prevent falls etc.

The service also makes users aware of a range of other local support services in South Derbyshire. This might include for example, referrals to other services, signposting to other agencies and supporting access to local social activities.

The service is free and self-referrals are welcome. Referrals can also be made by professionals and family members.
